WORK EXPERIENCE

Full Stack Developer,   **1-Apr-2024 to Ongoing**
(Shashi Sales and Marketing, Noida, Uttar Pradesh, India)

- Developed websites IraStudentLiving.com, ShashiSales.com, Suak.in, cutcorners.in, SSbrunette.com, MySpeech.in, Upposh.co, BhartiyaBazar.com, BistaraLinen.com.au using **HTML, CSS, JavaScript, Node.js, Express.js, MongoDB, and React**. Created admin and manager panels and designed UIs with GSAP animations.
- Implemented user authentication and authorization with Passport.js. Followed coding best practices, used multiple Node.js libraries, and developed RESTful APIs.
- Deployed websites on GitHub and hosted on a VPS with Ubuntu OS, managing servers via Putty SSH client.

Full Stack Developer,   **19-Feb-2024 to 31-Mar-2024**
(Dmarketing Pro., Noida, Uttar Pradesh, India)

- Created and deployed several responsive website applications using the MERN stack (MongoDB, Express.js, React, Node.js), ensuring optimal performance and user experience.
- **WordPress websites :** **https://msbsecurity.in/** **and** **https://mekartstudio.com/** **and** **https://bardok.in/** etc.
- Increased the number of clients by at least 10% through fast and efficient coding practices. Boosted sales on the company website by 19.5% with an interactive interface and improved website performance on **https://prezitrends.com/** and https://www.kbstravels.com/**.**

Full Stack Developer,   **14-Aug-2023 to 15-Feb-2024**
((WeeSync) Clan Consulting (P) Ltd., Noida, Uttar Pradesh, India)

- Developed MERN stack applications and responsive UIs with HTML, CSS, and JavaScript; optimized code to increase website speed by 20% and created multiple WordPress sites.
- Designed RESTful APIs, collaborated in Agile processes, conducted code reviews, and mentored junior developers.

Web Development Intern,   **25-july-2022 to 20-Oct-2022**
(Analysed, Noida, Uttar Pradesh, India)

- Enhanced UIs with modern JavaScript frameworks, HTML5, and CSS3, improving performance by 25%. Optimized code, reducing compatibility issues by 30%, and elevated existing websites by 20% with custom HTML and JavaScript.
- Developed backend functionalities with PHP and MySQL, and conducted Selenium IDE testing for developed pages.

Undergraduate Frontend Developer,   **05-may-2022 to 30-july-2022**
(Eduladder, Bangalore, Karnataka, India)

- Improved web interfaces by 20% using HTML, CSS, and JavaScript, and increased user engagement by 15% with React.js features.
- Ensured cross-browser compatibility and responsive design, enhancing overall user experience by 25%.

ACADEMIC PROJECT

WANDERLUST – Find your perfect stay   **View:** https://mega-project-c4rt.onrender.com

- Developed an Airbnb-like website using React, MongoDB, Express.js, Node.js, and JavaScript, implementing RESTful APIs for a 20% improvement in data interaction.
- Utilized MVC architecture for efficient code organization and maintenance, integrating stringent authorization and authentication measures.
- Enhanced user experience with detailed accommodation information, high-quality images, and user reviews.
